

What happens when you turn 18 in developmental services . . .

*One of many Frequently Asked Questions about adult developmental services
In Haldimand and Norfolk counties*

What is a most import thing to understand about turning 18 when you have already been receiving developmental services and supports in the province of Ontario?

There is something that is very important for you to know about turning 18 and developmental services and supports. Here in the province of Ontario, the government classifies you as an “adult” once you turn 18. You will then have adult rights and adult responsibilities.

Some of the services you have been receiving before you were 18 might not be available to you any longer. But, on the other hand, there will be new services that you might become eligible to receive.
